WORK EXPERIENCE

Horizon Broadband Private Limited

Software Engineer (SDE)

July 2023 - Present

- **Developed scalable CRUD APIs**, improving data management efficiency and reducing error rates by 15%.
- **Reduced codebase size by 85%** through refactoring, enhancing maintainability and cutting system resource usage.
- **Implemented JWT-based secure authentication**, safeguarding user data and achieving a 20% increase in security compliance.
- **Optimized data retrieval** by integrating Redis caching, cutting API latency by 40% and boosting system responsiveness.
- **Led a project to streamline database operations**, collaborating with cross-functional teams and achieving a 10% reduction in query processing time.
- **Designed monitoring dashboards** using AWS CloudWatch, enabling proactive system maintenance and reducing downtime by 25%.

Faclon Labs

Frontend Intern

Dec 2022 - Mar 2023

- **Spearheaded the development of a Recipe Book application** using Angular 2 for the frontend, Node.js for backend, and Firebase for real-time data synchronization.
- **Improved user experience by 25%** through seamless real-time updates, **reducing synchronization issues by 40%**.

PROJECT

Recipe Book

Dec 2022 - Jan 2023

- **Developed a feature-rich web application** enabling users to create and manage recipes, boosting engagement.
- **Implemented secure user authentication using Firebase**, increasing user trust and retention.

LifeCare Portal

Aug 2022 - Sep 2022

- **Designed a hospital management platform**, streamlining real-time monitoring of oxygen and bed availability.
- **Reduced response time during emergencies by 30%**, enhancing critical healthcare access during the COVID-19 pandemic.
- Collaborated with hospital administration to automate critical data updates, increasing **system accuracy by 20%**.

EDUCATION

Centre for Development of Advanced Computing (C-DAC)

Advanced Diploma in Computer Science - 69.25%

Mar 2022 - Aug 2022

K.J. Institute of Engineering and Technology

B.E, Computer Engineering - 7.61/10

Jul 2013 - Jun 2017

SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, Java
- **Databases:** MongoDB, Redis, MySQL, NoSQL
- **Frameworks & Tools:** Node.js, Express.js, Docker, Postman, Serverless, Jest
- **Cloud Services:** AWS (S3, Lambda, API Gateway), Firebase
- **Soft Skills:** Leadership, Collaboration, Effective Communication, Problem-solving, Initiative
